

# Cuttopress Product Series

The central inline cutting and extraction systems Cuttopress are dedicated for one production line up to a large number of machine groups including a *baler* (CP-4000) or a *compactor/stationary press* (CP-6000) as collection device. These devices can be new ones or already existing ones.

## Single parts:

- 🌀 Cutting modules of the Cuttopipe MCM- or TCM-family
- 🌀 Transportation fan (frequency controlled)
- 🌀 Pipe system
- 🌀 Electrical control cabinet incl. frequency converter for the transportation fan
- 🌀 Material separator
- 🌀 Filter plates with filter class G4
- 🌀 Air return system

## 2 Versions:

- 🌀 CP-4000: Baler (new or used one)
- or
- 🌀 CP-6000: Compactor (new or used one)

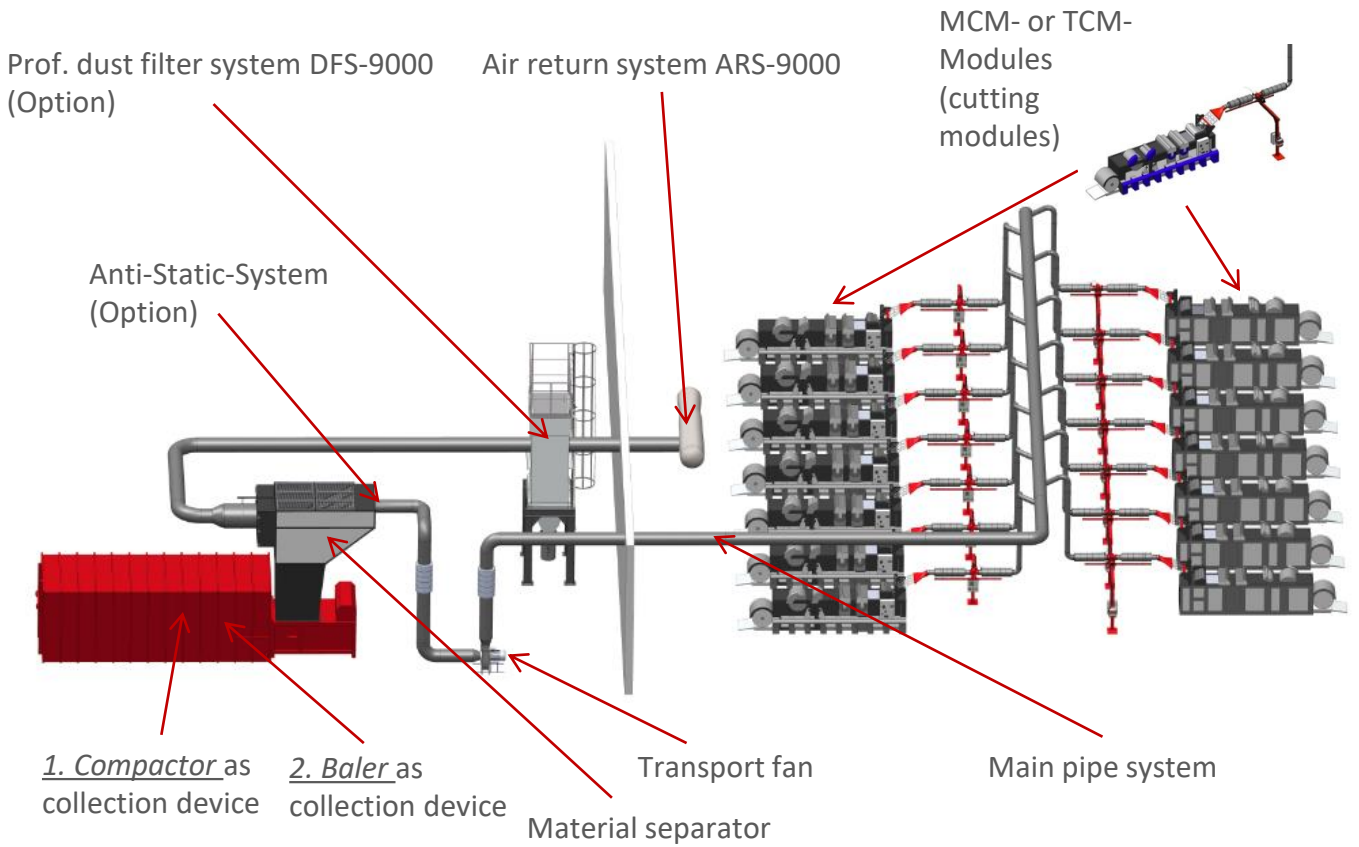

## Options:

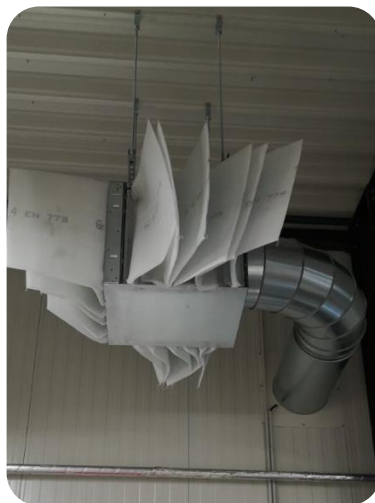

- 🌀 Anti-Static-System
- 🌀 Material separation system
- 🌀 Professional dust filter system
- 🌀 System enlargement(s) in the future
- 🌀 Sound control housing for the transportation fan
- 🌀 Summer-Winter-valve for air return
